

Team Involvement in Demonstration

Date	30 June 2026
Team ID	XXXXXX
Project Name	Rising Waters
Maximum Marks	1 Mark

Team Involvement in Demonstration:

This document records the active participation and roles of each team member during the project demonstration. It ensures that every member contributes meaningfully to the presentation and that responsibilities are distributed fairly and clearly.

S.No	Team Member Name	Role in Demo	Section Presented	Contribution Summary	Participation (Active / Passive)
1	Yasmin Shaik	Team Leader & Presenter	Introduction & Conclusion (Sections 1 & 6)	Opened the demo with the problem statement and project overview. Coordinated team transitions between sections. Closed with a summary of results (96.55% accuracy, 100% implementation rate) and future scope.	Active
2	Chetan Reddy Sannapareddy	Data Analyst & Presenter	Dataset & Preprocessing (Section 2)	Presented the historical weather dataset, explained feature selection (annual rainfall, cloud visibility, seasonal rainfall), demonstrated data cleaning and preprocessing steps, and walked through the train/test split strategy.	Active
3	Sufronia Ganta	ML Engineer & Presenter	ML Model Training & Results (Sections 3 & 4)	Live-demonstrated training of all four classifiers (Decision Tree, Random Forest, KNN, XGBoost). Presented accuracy comparison chart and confusion matrices. Justified XGBoost selection as the production model with 96.55% accuracy.	Active

4	Seethal Somisetty	Web Developer & Presenter	Flask Web Application Demo (Section 4)	Demonstrated the Flask web interface live — entered meteorological inputs, triggered real-time flood risk predictions, and explained how the saved XGBoost model is loaded and served via REST API endpoints.	Active
5	Yasmin Shaik	Cloud Engineer & Presenter	Multi-Region Monitoring & Cloud Deployment (Sections 5 & 6)	Demonstrated multi-region flood risk monitoring using the web app. Showcased the application deployed on IBM Cloud, highlighting scalability and global accessibility for disaster management authorities.	Active
6	Ameena Shaik	Q&A Coordinator	Q&A and Wrap-Up (Section 6)	Facilitated the Q&A session, directed technical questions to the appropriate team members, and ensured all queries were addressed clearly. Delivered closing remarks on project impact and future roadmap.	Active

Team Coordination Notes:

Aspect	Details
Team Leader / Coordinator	Yasmin Shaik — responsible for overall demo flow, time management, member cue coordination, and ensuring smooth transitions between all six sections.
Overall Team Coordination Rating (1–5)	* 5 / 5 — All team members were fully prepared, arrived on time, and delivered their sections confidently within the allocated time. Transitions between presenters were seamless.
Any Issues During Demo	Minor delay of approximately 30 seconds during the Flask web application demo due to a slow page load on the live IBM Cloud deployment. No major technical or communication issues were encountered.
How Issues Were Resolved	Seethal Somisetty calmly narrated the expected output while the page loaded, maintaining audience engagement. Ameena briefly summarised the feature being demonstrated to fill the gap. The demo resumed without further disruption.
